

# *[AN ULTRA-LIGHT BACKPACKING STOVE AND INSULATED CUP]*

## **Abstract**

An ultra-light stove and cook pot that when packed up for storage convert to an insulated cup, comprising a cook pot, a windscreen, a stand and a tray for suspending a burning fuel tablet. Packed up for storage, the cook pot functions as a cup, the tray insulates the bottom of the cup, the windscreen insulates the sides of the cup, and the stand encircles and holds everything securely in place.
